Associate Professor,
Molecular Medicine and Bio Technology

Dr. Rohit Sinha,
Assistant Professor,
Department of Endocrinology

Director SGPGI have lauded the achievements of the scientists and congratulated the faculty. Professor Dhiman who also stands in the list of topmost scientists said, "SGPGI is acknowledged for patient care, clinical research and academics not only in the country but in the entire world. Today is the day of celebrations again. The matter of pride is that the new faculty with their perseverance, hard work and consistent efforts are doing wonders in such a short span of their career. I hope that the rest should get inspiration from them and aspire to do better
